

Supporting Harshit at Home

Dear Parents,

Harshit has shown remarkable skills in his assessments, particularly in understanding and applying concepts related to Percentages. Here are some ways you can support him at home:

Actionable Suggestions:

- Encourage Exploration: Introduce Harshit to more complex problems that challenge his understanding and application of concepts.
- Real-World Applications: Engage him in activities that involve Percentages, like budgeting or cooking, to see how these concepts work in everyday life.
- Study Routines: Set aside regular time for Harshit to explore advanced topics and practice problem-solving.
- Positive Reinforcement: Celebrate his achievements and encourage him to embrace challenges as opportunities for growth.

Your support will be crucial in helping Harshit continue to excel and develop his skills further. Together, you can make learning an exciting adventure! 📚
