

Hey Sanga!

Welcome to your learning adventure! 🌟

You've shown that you have a strong understanding of basic percentage concepts, which is a fantastic start! You managed to answer 2 out of 10 questions correctly, and that's a great foundation to build upon.

Your Strengths:

- **Basic Understanding:** You have grasped some of the basic ideas behind percentages, which means you're on the right track!
- **Listening Skills:** You're able to listen and absorb information, which is a key part of learning.

Areas to Improve:

- **Application of Knowledge:** Sometimes, it can be tricky to apply what you know to solve problems. But don't worry! With practice, you can definitely improve this.
- **Retention of Information:** Remembering what you learn can be challenging, but with the right strategies, you can enhance your memory!

Your Quest for Improvement:

- **Practice Makes Perfect:** Dive into some fun percentage problems! Focus on understanding the concepts rather than just memorizing formulas.
- **Visual Aids:** Try using percentage charts or drawings to visualize problems. This can make learning more engaging and easier to understand.
- **Real-Life Scenarios:** Apply what you learn to real-life situations, like calculating discounts while shopping or figuring out scores in games.
- **Regular Reviews:** Set aside some time each week to review what you've learned. Quizzes can also be a fun way to test your knowledge and build confidence!

Remember, every great hero faces challenges, but with effort and practice, you can overcome them! Keep pushing forward, and you'll see amazing progress! 🚀
